(54) AUTOMATIC PERSONAL CONFIRMATION PROCESSING METHOD

(57)Abstract:

PROBLEM TO BE SOLVED: To provide an automatic personal confirmation processing method for displaying high security at low management costs.

SOLUTION: A user side personal computer 140 and a manager side server 180 are connected by a network 170, the user side personal computer 140 is provided with an IC card reader 111 for reading personal information on an IC card 110, keyboard 120 for inputting a user ID or a password and digital camera 130 for possessing the digital image of a user and the manager side server 180 is provided with a user managing data base 190 registering the user ID, passwords and digital images of respective individuals. The user side personal computer 140 sends the user ID, password and digital image to the manager side server 180 and the server 180 collates them with information in the data base 190 and confirms identity.
